To,
Mr. T. D. Joseph

Welcome once again for joining the family of MCHI administrative set up as Head of Events and Exhibitions. I would just like to bring to your notice, as I have already discussed in 2-3 sittings with you about arrangements for our MCHI exhibition, which is our main source of raising resources.

As you are aware our next main exhibition has been finalised to be held in October - 2014 from 2nd October to 5th October (Dassera time). With your experience and knowledge of spearheading such events, I would just like you to explore the expanding scope and include more items which are ancillary and close to the housing exhibition. E.g. items of supporting works which are integral part of internal and external construction, furnishing etc. so that more people or exhibitors could join our exhibition and provide better opportunities to the home buyers to bring them into a comfort zone and to make better choice for them.

We would keep on discussing the relevant issues and preparation for the same.
