Sub: Heartiest Congratulations for starting Real Estate Regulatory Authority (MahaRERA)

Respected Sir,

At the very onset, CREDAI-MCHI would like to extend our heartiest congratulations to you and your entire team of concerned officials of every department & subject experts that is behind rolling out of the quasi-judicial body "The Maharashtra Real Estate Regulatory Authority" (MahaRERA). State of Maharashtra has always been a pioneer and a flag bearer for ringing in change or to bring in innovative measures of governance and industry support. Under your kind and able leadership, our state has once again proven its undoubted leadership position by being the first state to notify and implement the important & crucial RERA Act & its Rules, to set up a Tribunal & Appellate Authority and the first state to go live with the RERA website.

The toil and labour that your entire team may have gone through to put this entire system and process in place is definitely going to go a long way in once again taking Maharashtra to its leadership position in the Real Estate Sector. We at CREDAI-MCHI are very sure that this completely online step-by-step process that your team has put in place is bound to usher in an era of 'zero footfall-zero paper' and will bring along with it the much-desired transparency and discipline in the real estate sector.

As an apex body of over 1700 developers & builders across MMR, CREDAI-MCHI shall always stand behind you and your RERA Team to make this a grand success and together we shall work towards reinstalling trust & confidence across various stakeholders of the sector.

While once again being very proud of our State, we extend our heartiest greetings & salutations to your team. In view of this we humbly request for an audience with your good-self where a delegation of CREDAI-MCHI could personally greet and congratulate you & your team.

Earnestly looking forward to your valuable confirmation of a convenient date and time for meeting with CREDAI-MCHI members.

Yours faithfully
For CREDAI-MCHI
