

Ref. No.: MCHI/SEC/11-12/233

April 10, 2012

To,
**All Managing Committee Members of MCHI-CREDAI
& All Managing Committee Members of MCHI-CREDAI Units.**

Dear Members,

As you are all aware, this is a time of great crisis and each one of us is being put through constant pain and hardship.

In our past meetings we have resolved as a group to take a course of action however, it has been seen that our own individual work may be taking so much of our time that we are unable to give our whole hearted commitment in terms of time, energy and effort to this.

I encourage you to participate and if it is not possible, I request you to please inform me, the President and Zubin in advance letting us know why you are not attending the meetings.

Please understand that at this point of time we need your full cooperation and support and if we don't get the same, at least give us the opportunity appointing others in that position to be able to take this forward.

Please treat this in its true sense as a request and a plea. Without your and everybody's support, this movement cannot get its required results and in the long run term we will all stand to suffer.

I once again I humbly request that your participation is of utmost importance.

Please be available for all meetings at all times.

**Best Regards,
For MCHI-CREDAI**
