Dear *respected Mohamed Abas Sahab, Salam alaikum!*

With reference to our meeting with Hon'ble Chief Secretary under the subject of Study Technical Group of High Rise Committee held on June 27 2013 in Mantralaya, Mumbai, India. I discussed various issues related to the High Rise Committee. In that meeting Chief Secretary suggested that, state government will study the norms which are followed by international countries like UAE, Japan, Malaysia, Singapore & USA.

May I request on behalf of Maharashtra Chamber of Housing Industry (MCHI) to provide us the details and whatever standards, norms, as per the law and rules thereof in your country being applied while scrutinizing the real estate proposals/projects in order to have Structural Stability/Safety and Fire Safety provisions there.

I would be grateful if the official standards and norms, the legal regime, followed by local government authorities in your country which are being observed for these two important parameters are informed to us. We have to provide this information to the Urban Development Department through which our real estate projects in Mumbai Region would be considered by the Urban Development Department, Government of Maharashtra here.

I will be highly obliged if you could send us the information at your earliest convenience please.

Thanking you, *With warm regards,*

S. S. Hussain
