A web based application "My Waste" has been developed for creating a database of wet waste and dry waste generation. A public notice has also been issued to create awareness about the web link <http://swm.mcgm.gov.in:8081/MYWASTE/#/login>. Waste generator societies (BWG & other societies) are required to ensure registration and regular upload of data in the application. Uploading information in this application is also a prerequisite for residential societies to be eligible for rebate under the General Tax of Property Tax. In the meeting held on 4-3-2020, the Monitoring Committee appointed by Hon'ble High Court, has expressed its displeasure about the poor progress of the registration & data uploading in the App.

In view of above following directives are issued to A.E.(S.W.M.) wards / Zonal E.E.(S.W.M.) :

1. Create awareness & encourage Waste generator societies (BWG & other societies) regarding the My waste App and registration & data uploading in the App and about the MCGM scheme of rebate under the General Tax of Property Tax for processing & segregation of waste.

3. Invite quotations at ward level, by following due procedure, for appointment of agency for assistance & handholding in registration & data uploading in My Waste App & to ensure good response of societies opting for rebate in Property Tax .
4. In the first phase, priority shall be given to register all the BWG societies and those societies opting for rebate in Property Tax within 01 month.

A.E. (S.W.M.) Ward shall submit the monthly compliance report on 5th of next month promptly without fail to Dy.Ch.E. (S.W.M.)Op. / Ch.E.(S.W.M.).
