Subject: Suggestion for Incorporating Green Building FSI Incentive in DCPR 2034

Respected Sir,

On behalf of **CREDAI MCHI**, the apex body representing real estate developers in Maharashtra, we submit this representation urging the inclusion of **additional FSI incentives for green buildings** in the **Development Control and Promotion Regulations (DCPR) 2034**.

As you are aware, the existing **Unified Development Control and Promotion Regulations (UDCPR)** provide additional FSI as an incentive for projects certified under green building standards (such as GRIHA, IGBC, or LEED). This policy has significantly contributed to promoting sustainable construction practices across the state.

To further Mumbai's commitment to **environmentally responsible urban development**, we propose:

- Continuation of Green FSI Incentives** – Incorporate provisions similar to UDCPR in DCPR 2034 to ensure policy consistency.
- Enhancement of Incentives** – Consider increasing the FSI benefits to encourage wider adoption of green building technologies.
- Streamlined Approval Process** – Introduce faster clearances for green projects to complement FSI benefits.

Such measures will align with **global sustainability goals**, reduce carbon footprints, and support the state's vision for **climate-resilient infrastructure**. CREDAI MCHI and its members are committed to partnering with the government in this initiative.

We request your office to review this proposal favorably and invite us for a discussion to provide further inputs.

Thank you.

Yours sincerely,
For **CREDAI-MCHI**
